Simple Frame insert

1. Push top pin to top bracket hole
2. Slide bottom pin into bottom hole
3. Repeat for all 10x frames

Supplied in 5x Colour Choices

Blue
Green
Orange
Red
Yellow

Fitting into 'Wood"

1. Decide where the bracket needs to be fitted
2. If attaching to wood, just secure bracket with 4x screws (not supplied)
3. You will require 1x spirit level + 4x screws + 1x screw driver
4. Once bracket is secure, now slide in 1x frame into the first top hole
5. Then, slide the bottom section pin, into the 1st bottom hole
6. Repeat for all 10x frames

Fitting into a "Solid Wall"

1. Decide where the bracket needs to be fitted
2. If attaching to a solid wall more tools are required
3. You will require 1x spirit level + 4x screws + 1x screw driver + 1x Drill + 4x Raw Plugs
4. Hold bracket against the wall, check level, mark holes with a pencil
5. Remove bracket, drill 4x holes, add raw plus, connect bracket (screws not supplied)
6. Now add the 1st Frame, slide up and slide down action
7. Repeat for all 10x frames
